PROFESSIONAL SUMMARY

Motivated Full Stack Developer with hands-on experience building and deploying end-to-end web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Successfully transitioned from a healthcare background, bringing a proven track record of precision, structured problem-solving, and attention to detail. Experienced in RESTful API development, JWT-based authentication, MVC architecture, and full-stack deployment. Passionate about writing clean, scalable, and maintainable code in agile development environments.

TECHNICAL SKILLS

Languages:	JavaScript (ES6+), HTML5, CSS3, C++
Frameworks & Libraries:	React.js, Express.js, Node.js, Mongoose, REST APIs
Database:	MongoDB, Schema Design, Mongoose ODM, CRUD Operations
Frontend:	Responsive Web Design, HTML5, CSS3, Component-Based Architecture
Backend:	Node.js, Express.js, MVC Architecture, RESTful API Design, Middleware
Auth & Security:	JWT Authentication, Session Management, Authorization, bcrypt
Tools & Platforms:	Git, GitHub, VS Code, npm, Postman, Full-Stack Deployment, Linux CLI
Concepts:	Object-Oriented Programming (OOP), Agile Methodology, Code Review, Version Control, CI/CD basics
Soft Skills:	Attention to Detail, Structured Problem Solving, Team Collaboration, Documentation

PROJECTS

Grocery E-Commerce Web Application — rahina.online

Stack: HTML5, CSS3, JavaScript (ES6+), Node.js, Express.js, MongoDB, Mongoose | Live: rahina.online

- Designed and deployed a production-grade, full-stack e-commerce platform for online grocery sales, live at rahina.online with real-world uptime and domain management.
- Implemented end-to-end user authentication system using JWT and session-based authorization covering registration, login, and role-based access control.
- Built and documented 15+ RESTful API endpoints using Express.js covering product catalog, shopping cart, order placement, and user account management.
- Engineered structured MongoDB schemas for products, users, and orders using Mongoose ODM, supporting efficient querying and data integrity.
- Managed full deployment pipeline: server configuration, DNS setup, domain registration, and production environment monitoring.
- Implemented responsive front-end UI with HTML5 and CSS3, ensuring cross-device compatibility across mobile and desktop.

Personal Portfolio & Skills Projects — Brototype Training (2025)

Stack: MERN (MongoDB, Express.js, React.js, Node.js) | Git, GitHub

- Built multiple full-stack mini-projects during intensive MERN training, applying React.js hooks (useState, useEffect), component architecture, and props-based data flow.
- Developed backend services with Express.js including middleware for request validation, error handling, and API versioning.

- Practiced Git-based version control including branching, pull requests, merge conflict resolution, and collaborative code review workflows.

WORK EXPERIENCE

Full Stack Development Trainee

Brototype | Remote | Mar 2025 – Present

- Completed 500+ hours of intensive full-stack development training covering React.js, Node.js, Express.js, MongoDB, and production deployment workflows.
- Built and shipped real-world projects applying MERN stack in a structured, industry-focused curriculum modelled on professional development cycles.
- Participated in agile sprint workflows including daily standups, sprint planning, code reviews, and retrospectives using Git and GitHub.
- Collaborated with peers in team projects, practising component reuse, API integration, and joint debugging of full-stack applications.

Radiology Technician (Work Term)

Hamad Medical Corporation | Doha, Qatar | Mar 2015 – May 2015

- Assisted radiologists in preparing and documenting 30+ patient procedures per week for X-ray, CT, and MRI with zero documentation errors over the term.
- Maintained strict adherence to safety protocols and medical record accuracy — precision and compliance skills directly transferable to software quality assurance.

Student Services Assistant

College of the North Atlantic – Qatar | Doha, Qatar | May 2014 – Jul 2014

- Managed student records, admissions documentation, and registration workflows using PeopleSoft ERP system for 200+ students.
- Coordinated exam scheduling, orientation events, and front-desk support — building strong stakeholder communication and process management skills.

EDUCATION

Diploma – Medical Radiology Technology

College of the North Atlantic – Qatar | Sep 2012 – Jun 2015

Relevant training: anatomy, patient communication, medical records management, precision-based technical workflows.

ADDITIONAL INFORMATION

Languages:	English (Fluent), Malayalam (Native)
Career Transition:	Successfully transitioned from healthcare to software development through self-directed learning and structured MERN stack training at Brototype (2025).
